

Vulcan 810 Intruder

The Superior Solution To Self Loading Wheel Lifts

The Vulcan Intruder has been specially designed to fill the needs of private impounders and professional repossessors. The low profile boom and low mount planetary winch provides a sleek appearance and superior rear visibility. The modular design body is adjustable from 88" to 94" eliminating the need for fender flares and includes spacious driver and passenger side tool compartments to provide ample storage space for your additional equipment. The proven hydraulic self loading wheel lift system provides for quick and easy operation, even when hooking up to parallel parked vehicles. Contact your local Vulcan distributor for more information on the new sleek, stylish and functional self loading wheel lift system, The Vulcan Intruder.

Note: Some optional equipment may be shown. Other Vulcan Towing and Recovery Equipment is available from your local Vulcan Distributor.
